MANYA LUTHRA (IOT & AI Enthusiast)

Portfolio — LinkedIn — Leetcode —GitHub , luthramanya77@gmail.com ,+91 9891285980,Gurugram,India

EDUCATION

Year	Degree /Institution	CGPA / %
2022–2026	B.tech CSE(Spec.AIML) The Northcap University, Gurugram	8.94 (ongoing)

EXPERIENCE

AI &ML Intern ,Rockwell Automation India Pvt. Ltd Jun 2025 - Aug 2025

- Designed and implemented a Flask-based OCR web application using Tesseract and Azure SQL to automate extraction of equipment data from manuals, reducing manual processing time
- Worked closely with automation engineers to integrate the solution into Rockwells maintenance workflow, aligning with industrial automation standards. View Certificate

Microsoft Azure Fundamental Intern, Unique Training Solutions Ltd Jun 2024 - Jul 2024

- Completed a 6-week summer internship and certification program on Microsoft Azure Fundamentals, conducted by Unique Training Solutions (Microsoft Partner). Certified by Certiport, a Pearson VUE business.

PROJECTS

OCR Web App with Azure SQL Integration **Jun 2025 - Aug 2025**

- Built a **Flask App** using **Tesseract OCR for real-time value and unit extraction.**
- Used **AZURE SQL** for storage and added Interactive **Dashboards** for visualization**.** [Link]

RoadSight-Lane-Detection-Dashboard - Computer Vision /Frontend **Sep 2025 - Nov 2025**

- Detect lane lines in images and videos using OpenCV with a Flask-based web interface. Upload media to view original and processed outputs side-by-side with highlighted lane lines. [Link]

Social Network Analysis Dashboard - NLP/Frontend **Sep 2025 - Nov 2025**

- Visualizes startup ecosystems with interactive network graphs, statistical dashboards, and word clouds.
- Provides key SNA metrics like degree centrality, betweenness, and k-core, plus searchable company details. [Link]

ESP32 Smart Lock System With Bluetooth Communication – **Oct 2025 - Nov 2025**

- A comprehensive multi-access door lock system built with ESP32, featuring RFID authentication, keypad entry, and Bluetooth remote control capabilities. [Link]

MYConstitutionConnect | AI-Powered Legal-Tech Suite **Sep 2025-Present**

- Built a Constitutional knowledge suite using Next.js, Flask, and Google Gemini.
- Developed a real-time, vernacular voice assistant for conversational legal guidance via WebSockets.
- Automated legal database updates and OCR document analysis using Generative AI. [Link]

SKILLS

- **Languages:** JAVA, Python, HTML, CSS, JavaScript ,DSA
- **Subjects :** Computer Vision, NLP, Deep Learning, Machine Learning, Arduino,ESP-32 , GenAI, LangChain, RAG, MS Office,Cloud Computing,Numpy,Pandas,LLMs ,Tesseract, TensorFlow, scikit-learn
- **Database/Tools:** Azure, GitHub, Leetcode, MySQL/VS-CODE ,Terminal,Git
- **Soft Skills**: Event Management, Leadership, Project Management, Design Thinking

CERTIFICATIONS

- Microsoft Azure AI Fundamentals Certificate
- IoT Minor Certificate | Arduino • ESP32 • NodeMCU • Cloud Computing [Awaited]

ACHIEVEMENTS/PATENTS

- **An intelligent cooling system for dynamic monitoring, prediction and optimization of storage conditions in real time** Published under German Patent and Trademark Office (DPMA), **Application No. 20 2025 102 115.3.**
- **Water Management System,**Published under Indian Patent Office **Application No. 202311072065.**
- **Merit Scholarship Awardee – The NorthCap University, 2022-2023**
- **Hatch Scholarship recipient for 2025-2026**
